FIG. 6

This cross-sectional view shows a central block 120 with diagonal hatching. It is surrounded by a layer 112, which is further enclosed by a layer 114a. A layer 116 is located between the central block 120 and the layer 112. The entire structure is supported by a substrate 102, which is covered by a layer 104. A layer 118 is positioned above the central block 120. A layer 124 is located between the layer 112 and the layer 104. A pressure region 122 is indicated by a bracket and arrows at the top of the diagram.
